Hardeep Singh Puri

Minister of State for
Commerce and Industry

"Invest India is our national investment promotion and facilitation agency. It acts as the first point of reference for foreign investors. It is improving India's investment climate by simplifying the business environment for investors. I encourage team Invest India to strive further in their effort to make India a favoured investment destination."

NEW INDIA STORIES

CSR Opportunities on India Investment Grid (IIG)

India is one of the first countries in the world that has mandated Corporate Social Responsibility (CSR) expenditure by corporates. To help interested corporates find opportunities to create large scale impact, Invest India has launched a CSR opportunities repository on IIG. The platform allows corporates to easily connect to credible opportunities shared directly by state governments and reputed technology institutes in areas of maximum need like healthcare, wellness, water and sanitation, and education.

IIG currently hosts a total of 793 CSR Opportunities from 100+ districts in the country. Under the expanded ambit of CSR as allowed by the Government of India, government-sponsored incubators and premier research institutions are also eligible for the mandated CSR spending by corporates. IIG also hosts 100+ such opportunities sourced directly from reputed institutions, thereby helping boost the innovation ecosystem in the country. The portal has already helped establish 50+ connects for corporates searching for CSR opportunities, within a very short span of time.

Raising your Seed Round with Surge x Startup India

Founders, especially the ones in an early-stage, have a lot of questions around fundraising. From who to pitch to, how to pitch and what happens immediately post a seed fundraise. To answer some of these questions, Startup India organised a four-part webinar series on early stage fund raising in collaboration with Sequoia India, capitalising on their deep expertise in seed-stage investing. The series focused on practical tips and takeaways through four sessions, pertaining to -

- Preparing the company to raise funds
- Crafting the pitch deck
- Picking the right angel investors and VC firms
- Term sheets and due diligence

The entire series is accessible [here](#)
