THE INTERNATIONAL B2B EVENT FOR **ENGINEERING & TECHNOLOGY**

3-5 February 2019,
Pragati Maidan, New Delhi

www.ietfindia.in

INDIA THE FASTEST GROWING ECONOMY

According to the IMF, India is expected to emerge as the fastest growing major economy in the world, growing at 7.4% and 7.5% in 2018 and 2019. It is expected to be one of the top three economic powers of the world over the next 10 - 15 years, backed by its strong democracy and partnerships. India's GDP increased 6.6 per cent in 2017-18 and is expected to reach a growth rate of 7.5 per cent into 2018-19.

OPPORTUNITIES

India has retained its position as the third largest startup base in the world with over 4,750 technology startups, with about 1400 new start-ups being founded in 2016. According to a report by NASSCOM India's labour force is expected to touch 500 million by 2020, based on the rate of population growth, increased labour force participation, and higher education enrolment, among other factors. Moody's upgraded India's sovereign rating after 14 years from Baa3 (Stable) to Baa2 (Positive). India received net investments of US\$ 23,346 million from FII's between Apr-Jan 2017-18. The bank recapitalization plan by Government of India is expected to push credit growth in the country to 15 percent. India has improved its ranking in the World Bank's Doing Business Report by 30 spots over its 2017 ranking and is ranked 100 among 190 countries in the 2018 edition of the report. India's ranking in the world has improved to 126 in terms of its per capita GDP, based on Purchasing Power Parity (PPP) as it increased to US\$ 7,170 in 2017, as per data from the International Monetary Fund (IMF). The Niti Aayog has predicted that rapid adoption of green mobility solutions like public transport, electric vehicles and car-pooling could likely help India save around Rs 3.9 trillion {US\$ 60 billion) by 2030. The Government of India will spend around Rs 1 lakh crore (US\$ 15.62 billion) during FY 2018-20 to build roads in the country under Pradhan Mantri Gram Sadak Yojana (PMGSY).

ROAD AHEAD

India's gross domestic product (GDP) is expected to reach US\$ 6 trillion by FY27 and achieve upper-middle income status on the back of digitization, globalization, favourable demographics, and reforms. India is also focusing on renewable sources to generate energy. It is planning to achieve 40 per cent of its energy from non-fossil sources by 2030, which is currently 30 per cent and also has plans to increase its renewable energy capacity from 57 GW to 175 GW by 2022. India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to a shift in consumer behaviour and expenditure pattern, according to a Boston Consulting Group (BCG) report; and is estimated to surpass the USA to become the second largest economy in terms of purchasing power parity (PPP) by the year 2040, according to a report by PricewaterhouseCoopers.

The biennial Flagship Event of CII since 1975 - in its long journey has achieved the status of a comprehensive international B2B event in this part of the world. Segmented into well-defined technological sections of the engineering/manufacturing industry and services sector, a number of focused sector specific shows have been successfully organized as concurrent shows with IETF, over the years. IETF 2019 is scheduled from 3rd to 5th February 2019 at Pragati Maidan, New Delhi, India.

IETF 2019 - sector specific focused shows

The Event will focus on Solid Waste Management and Recycling, Collection, Treatment, Storage, Transportation and Disposal of Municipal, Industrial, Hazardous Waste, Waste Recycling, Waste to Energy, Plastic to Fuel, Bio Methanation, Fly Ash and Slurry Recycling and Management, Landfill Management, E Waste Management, Waste Consultancy. The event will also showcase the latest advancements in technologies in this sector and highlight Infrastructure and management issues regarding Water Supply, Water Purification, Recycling & Supply and related industries.

The Green/Electric Mobility & Component show will bring together the entire Electric, Battery, CNG Vehicles and other alternate energy driven transport Industry on one platform from India and overseas to showcase the latest products, technologies and technical knowledge. This event will serve as a neutral platform amongst Industry, policy makers & other stakeholders to share knowledge and expertise in the sector of Green Mobility for India.

To make the manufacturing processes more efficient & reduce defect rates. Automation systems with advanced features are being deployed in major sectors as automotive, chemicals, manufacturing, mining etc. to perform a number of complex tasks & consistently provide customers with superior quality products.

India's premier Logistics & Material Handling Show, the event features the exhibition covering all sectors of the logistics industry and a Logistics Summit. The event will be an ideal platform for companies involved in Logistics, Supply Chain, Transportation, Shipping, Warehousing, Material Handling, Consultancy and IT related services to create more brand awareness and to showcase their strengths to the user industry.

The metal and metallurgy sector is crucial for the country's economy because major industries such as automobiles & auto components, infrastructure, construction, power, telecom, railways, aviation, engineering, oil and gas, defence, transport, agriculture, etc., are directly dependent on it. That explains why the sector needs to embrace new technologies, fresh ideas and innovations in order to give a fillip to Indian industries, especially SMEs and MSMEs.

Real Estate sector in India is witnessing a paradigm shift in India with rising maturity and development creating a ripple effect of positive market sentiments and changing the perception of the Indian reality sector on the global platform. With a compelling need for additional funding mechanisms, the effort to allow Real Estate sector is yet another step towards the organized development of the sector.

ABOUT CII

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering industry, Government, and civil society, through advisory and consultative processes. CII engages closely with Government on policy issues and interfaces with thought leaders to enhance efficiency, competitiveness and business opportunities for industry through a wide portfolio of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues. Extending its agenda beyond business, CII facilitates corporate initiatives for integrated and inclusive development across diverse domains. As a developmental institution working towards India's overall growth with a special focus on India@75 in 2022, the CII theme for 2018-19, India RISE : Responsible. Inclusive. Sustainable. Entrepreneurial emphasizes Industry's role in partnering Government to accelerate India's growth and development. The focus will be on key enablers such as job creation; skill development; financing growth; promoting next gen manufacturing; sustainability; corporate social responsibility and governance and transparency.

Founded in 1895, India's premier business association has around 9000 members, from the private as well as public sectors, and an indirect membership of over 300,000 enterprises from around 265 national and regional sectoral industry bodies. With 65 offices, including 9 Centres of Excellence, in India, and 11 overseas offices in Australia, Bahrain, China, Egypt, France, Germany, Iran, Singapore, South Africa, UK, and industry and the international business community.

HIGHLIGHTS

- The 22nd International Engineering & Technology Fair (IETF) 2017, the flagship event of the Confederation of Indian Industry (CII) held at Pragati Maidan in Delhi from February 2-4 2017 once again proved its strength as a unique platform for entrepreneurs, businesses, policymakers and innovators to come together to showcase their products and services and push the Indian industry to the next level of growth. Over 240 B2B meetings were conducted over three days.
- For the first time, three concurrent events — Health Tech India, India Gaming Show and Knowledge Expo -- were organised as part of the event -- enabling technological and knowledge convergence on a single platform.
- Japan participated as the Partner Country at IETF 2017 for the record fifth time. As many as 40 Japanese companies put up a large display of latest Japanese products and technologies in IT and Gaming sectors in an exclusive pavilion.
- Apart from Japan, around 500 companies from 25 countries participate as exhibitors -- covering 40,000 sqmts of exhibition space in Pragati Maidan. The expo mainly focused on future technologies for eight industrial sectors -- Green Mobility, Industrial Automation, Logistics, Metal & Metallurgy, Real Estate & Building Technology, Water, Waste & Recycling, and Welding & Joining Technologies.
- The 22nd edition of this biennial mega event was also unique in the sense that it was supported by the Delhi Government, and Eleven Ministries of the Government of India – Ayush, Coal, Electronics & Information Technology, Environment, Forest & Climate Change, Heavy Industries & Public Enterprises, Health & Family Welfare, New Renewable Energy, Petroleum & Natural Gas, Road Transport & Highways, Steel, and Urban Development.
